PROFESSIONAL SUMMARY

Electronics and Telecommunication Engineering student with strong foundations in electronic circuits, embedded systems, and software development. Developed web applications and software systems using C, Python, JavaScript, HTML, CSS, and SQL with database integration and responsive interfaces. Seeking internship opportunities in electronics, embedded systems, or software development.

TECHNICAL SKILLS

Electronics: Analog Electronics, Digital Electronics, Electronic Circuits, Signals & Systems, Communication Systems

Programming: C, Python, JavaScript, SQL | Web: HTML, CSS, JavaScript

CS: Data Structures, OOP, Algorithms, Operating Systems, Computer Networks

Tools: Git, GitHub, VS Code, MySQL, Vercel, Netlify | Design: Canva, Adobe, PowerPoint, Excel

PROJECTS

QuantX – Financial Tracking Web Application: Built using HTML, CSS, JavaScript; implemented income/expense tracking and budgeting dashboard; deployed on Vercel.

Carbon Care – Task Management System: Developed task manager with full CRUD functionality for task organization and productivity.

RFID-Based Attendance Management System: Built Python + MySQL system integrating hardware sensors for automated attendance tracking.

Expense Tracker: Developed application for tracking daily expenses and budgeting analysis.

GMTools – Inventory Management System: Built inventory tracker with CRUD operations and structured database for stock management.

EDUCATION

B.E. Electronics & Telecommunication – Bharati Vidyapeeth College of Engineering (SPPU) Pune – Graduation 2027

Higher Secondary – Narayana Institute, Pune | Secondary – City International School, Pune

CERTIFICATIONS

Full-Stack Web Development – Udemy | Analog Electronics – Udemy | Generative AI – Adobe/Coursera | Graphic Design – Adobe/Coursera

SOFT SKILLS

Problem Solving, Communication, Teamwork, Time Management, Leadership, Adaptability
